What are the benefits of mobile grooming?

With mobile grooming there is no need to take pets out of their own environment, eliminating anxiety and car sickness.

 No more transporting a dirty or shedding dog in your car. Senior pets will no longer struggle to get in and out of your vehicle.

 Mobile grooming is a huge time saver for people with busy lives. If you don't have time to take your pet to the salon and return later to pick them up, we will come to you!

 PawPrints Mobile Pet Salon is fully contained, we use our own water and electricity.

 Grooming is completed within one to two hours. No cages are used and pets are groomed from start to finish with no interruptions. There are no ringing phones or barking dogs to distract the pet or groomer. Ultimately it is a very personal service and a bond is made between the owner, the pet and the groomer.

Grooming Services

Every groom includes: nail trimming and filing, ear cleaning, clipping the hair between the paw pads, clipping the sanitary area, normal brushing, bathing, drying, clipping and styling.

PawPrints Mobile Pet Salon uses only the finest soap free, all natural shampoos and conditioners available.

Additional Salon Services

Dematting: Ten to fifteen minutes of normal brushing and combing is included with the price of your basic groom. If you wish to preserve long hair on you pet and we have to manually demat beyond that, an additional fee will be added. We do not recommend major dematting as it is painful and damages the hair and skin.

Anal Glands: Is your dog "scoting" across the floor? Having your pet's anal glands expressed can help.

Blueberry Facial: A calming blueberry and vanilla facial will not only clean and refresh, it also helps remove tear stains.

Additional Salon Services, cont.

Medicated Shampoo: For pets that are biting, licking and scratching our hypoallergenic treatments will soothe on contact. Skin redness caused by irritation is reduced. This is highly recommended for dogs with allergies.

Flea and Tick Control: Our flea and tick shampoo will immediately kill existing pests on your dog.

Frontline Plus and Advantix treatments will provide your pet with protection against fleas for up to 3 months and ticks for a month.

Tempermental Fee: If a pet repeatedly tries to bite or if a pet is elderly, they may require extra time and effort to safely complete their groom. In these instances an extra fee will be added.
